**INFORMATION ON RESISTANCE:**

The pesticide name **Kuramite** is an acaricide classified as Group 21A in accord with its action mechanism. Repeated applications of pesticides with same action mechanisms invite development of resistance. Therefore, to delay development of resistance, do not exceed the recommended number of **Kuramite** applications in the same season. In case repeated application is necessary, take care to use pesticides with a different action mechanism (except of Group 21A).

**MISCIBILITY:** It can be mixed with other insecticides and fungicides, excluding Bordeaux Mixture.
