TARGETED PLANTS AND PESTS

PLANT NAME	PEST NAME	DOSAGE
vineyard	The mildew (<i>Plasmopara viticola</i>)	100 L water/ 400 ml
tomato	The mildew (<i>Phytophthora infestans</i>)	100 L water/ 400 ml

The interval between the harvest and the disinfestation does not exist.

METHOD OF APPLICATION:

The preparation of drug for implementation:

The store of drug's tool is filled with water as half.

On the dose which is suggested on it, Agrizate is mixed with a little amount of water into separated container. That mixture is added slowly and the store is completed fully. The prepared consenter is mixed and is sprayed. During the repulsing, the mixing is being gone on and it should be cared to be covering well.

The time of using agrizate is important. For the implementation of agrizate, the news for suggestion and warning in terms of mildew should be cared and when the climax conditions increasing th risk of disease start to be formed the implementation should be done.

The mildew on vineyard when the first suckers reach at the lengths 25-30 chit starts. Second one and the followings are done with 10-12 days intervals by means of factors of meteorology, the situation of disease's development and effect time of 1. One.

The mildew on tomato: it starts when the cones of coverings being on bottom side like white ash of Brown spots on tomato leafs of 3-5 mm on environment.

It is kept on according to the climax conditions and the process of disease with 10 days intervals..

INFORMATION ON RESISTANCE:

The pesticide name **Agrizate** is a fungicide classifies as Group 33 in accord with its action mechanism. Repeated applications of pesticides with same action mechanisms invite development of resistance. Therefore, to delay development of resistance, do not exceed the recommended number of **Agrizate** applications in the same season. In case repeated application is necessary, take care to use pesticides with a different action mechanism (except of Group 33).

HAZARD SYMBOLS AND EXPLANATION:

Xn: HARMFUL

C: CORROSIVE

INGREDIENTS:

Includes phosphorous acid

RISK EXPRESSIONS RELATED TO APPLICATOR AND ENVIRONMENT:

R22: Harmful if swallowed

R35: It causes severe burns

SAFETY INDICATIONS AND EXPRESSIONS:

S1/2: Keep locked up and out of the reach of children

S13: Keep away from food, drink and animal foodstuffs

S24: Avoid contact with skin

S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

S27/28: After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of ... (to be specified by the manufacturer)

S36/37/39: Wear suitable protective clothing, gloves and eye/face protection

S45: In case of accident or if you feel unwell seek medical advice immediately (show the label where possible)

S46: If swallowed, seek medical advice immediately and show this container or label

S64: If swallowed, rinse mouth with water (only if the person is conscious)

MANUFACTURING AND PERMIT HOLDING COMPANY:

AGRI SCIENCES TARIM VE ILAC UR. SAN. VE TIC. LTD. STI.
