

IQ COMBI

Water Soluble Boron (B)	: 0.2 %
Water Soluble Copper (Cu)	: 0.5 %
Water Soluble Iron (Fe)	: 6 %
Water Soluble Manganese (Mn)	: 6 %
Water Soluble Molybdenum (Mo)	: 0.2 %
Water Soluble Zinc (Zn)	: 6 %

It is a fertilizer used to alleviate trace element deficiencies in all plants.

Contains 6% Fe, 6% Mn, 6% Zn, 1% MgO, 0.25% Mo, 0.25% B, 0.5% Cu. These trace element contents are chelated with glycine amino acid.

Foliar application dosage: 100 gr/ 100 L or 50 gr/da. Alleviates trace element deficiencies in all plants, thus helps plants to develop fast and healthy.

Glycine amino acid is the best organic chelating agent. Thus it ensures 100% absorption of its trace element content.

It is a SP form product with 100% water solubility.

It is applicable pre- and post-flowering on all types of plants.

It is the best trace element mix in its class with its 10% free amino acid content.

It is a special product which provides faster and better results than its competitors with its PGR content.
